

“Cooking Class?”

JAMIE:

You're never gonna believe what's happened to me! I got my schedule today and guess where those idiots in the office put me? Home economics! And they won't switch me out! Do you know what they say about guys who take Home Ec? Well, I'm sure you can imagine and it ain't pretty!

It's all my parents' fault. They had to go and name me one of those unisex names and so stuff like this happens all the time. First day of class and teachers are like, “Jamie?” “Here,” and they'll look at me funny like I don't know who I am.

So now I'm gonna be stuck sewing and cooking and who knows what else! In a room full of girls! I'll probably be the only guy in there!

Wait a second! A room full of girls!... The only guy is me...

You know, now that I think about it, I have always wanted to learn to cook.

Heck, there are a lot of famous male chefs, right?

Who knows where a class like this might lead...
